# THEMATIC WORK GROUPS

TWG 1: AI and big data for teaching and learning: implications for school leaders, teachers, policy makers and learners.

TWG 2: Special Needs: addressing challenges and opportunities using IT.

TWG 3: Inclusion of excluded populations: access and learning optimization via IT in the post-pandemic era.

TWG 4: Fostering self-regulatory skills in learners: challenges and opportunities for assessment.

TWG 5: Learning beyond formal schooling: human-computer-human interactions in a digital inter-connected era.

TWG 6: Aligning Educational Policies with the New Realities of Schooling.

TWG 7: Post pandemic online learning: Sharing the lessons learned on digital teaching for future education.

TWG 8: Pedagogical reasoning and reflective practice: Teacher's Professional Development (TPD) in online education.

TWG 9: Social Emotional aspects in new modes of learning.

# PERSONALIZED AND FLEXIBLE LEARNING

- Extend the boundaries of formal education to include teaching and learning in informal and non-formal contexts using diverse technologies, in order to foster self-directed learning of students and teachers.
- Promote organizational flexibility and funding for the design and development of innovative teaching and learning environments.
- Create mechanisms to credit non-formal and informal learning practices in formal education systems.
- Construct communities of practice consisting of various stakeholders in order to co-design innovative teaching and learning environments.
- Promote the creation of digital spaces where practitioners, researchers and policymakers work together to leverage co-creation of ideas and sustainable innovations.
- Design digital learning environments for students that support SRL (self-regulated learning) development, and acknowledge the opportunities and limitations of these environments.
- Include SRL and ways to support SRL by technology in existing competency frameworks for teachers, and incorporate this into teacher education.
- Initiate research that clarifies the role of technology in SRL, both theoretically and empirically.
- Initiate new multidisciplinary research methods that are design-based and embedded in practice to inform infusion and sustainability of technology in innovative teaching and learning environments.

# TEACHER PROFESSIONAL LEARNING AND DEVELOPMENT

- Ensure that practitioners participate in the development and evaluation of data-based
- approaches to modeling teaching and learning that they can trust, thereby promoting teacher agency.
- Develop participatory research and implementation of adaptable, context-based systems for making informed decisions, to foster a culture for professional learning and development, rather than evaluation.
- Develop theories of teacher professional learning, pedagogical reasoning, and effective practice that consider new global educational realities involving new data, new practices and also considering new roles and identities of teachers.

# EQUITY AND INCLUSION

- Focus the learning ecosystem towards inclusion of excluded populations: develop digital competence and adopt critical approaches towards technology bias and opportunities.
- Encourage agile policymaking framed within values and a vision of education in the digital era, respecting diversity and leading to inclusion and equity.
- Promote research-based policies to fund effectively-tailored ICT resources and assistive technologies that support students with special needs.
- Call on practitioners to hear the voices of special needs students about their experiences using ICT (including assistive technologies), in order to make informed adjustments to teaching and learning in the digital era.
- Enable policies that sustain digital technology accessibility and usability for the marginalized. communities and individuals and promote regulation and accountability of EdTech developers and providers.
- Encourage research and develop tools to measure and monitor digital equity in educational contexts.

# ARTIFICIAL INTELLIGENCE

- Identify and support new roles of educational stakeholders, pedagogical practices and policies for AI and data literacies in educational contexts.
- Foster Human-AI-Alliance in education through institutional strategies and actions to support teachers' agency and to avoid deprofessionalisation of educators.
- Build and use a rigorous body of open knowledge and evidence about AI in education to support evidence-informed development of AI applications and pedagogical practices.
- Prioritize privacy and ethical considerations through a multiperspective and interdisciplinary approach as the core of AI in education.

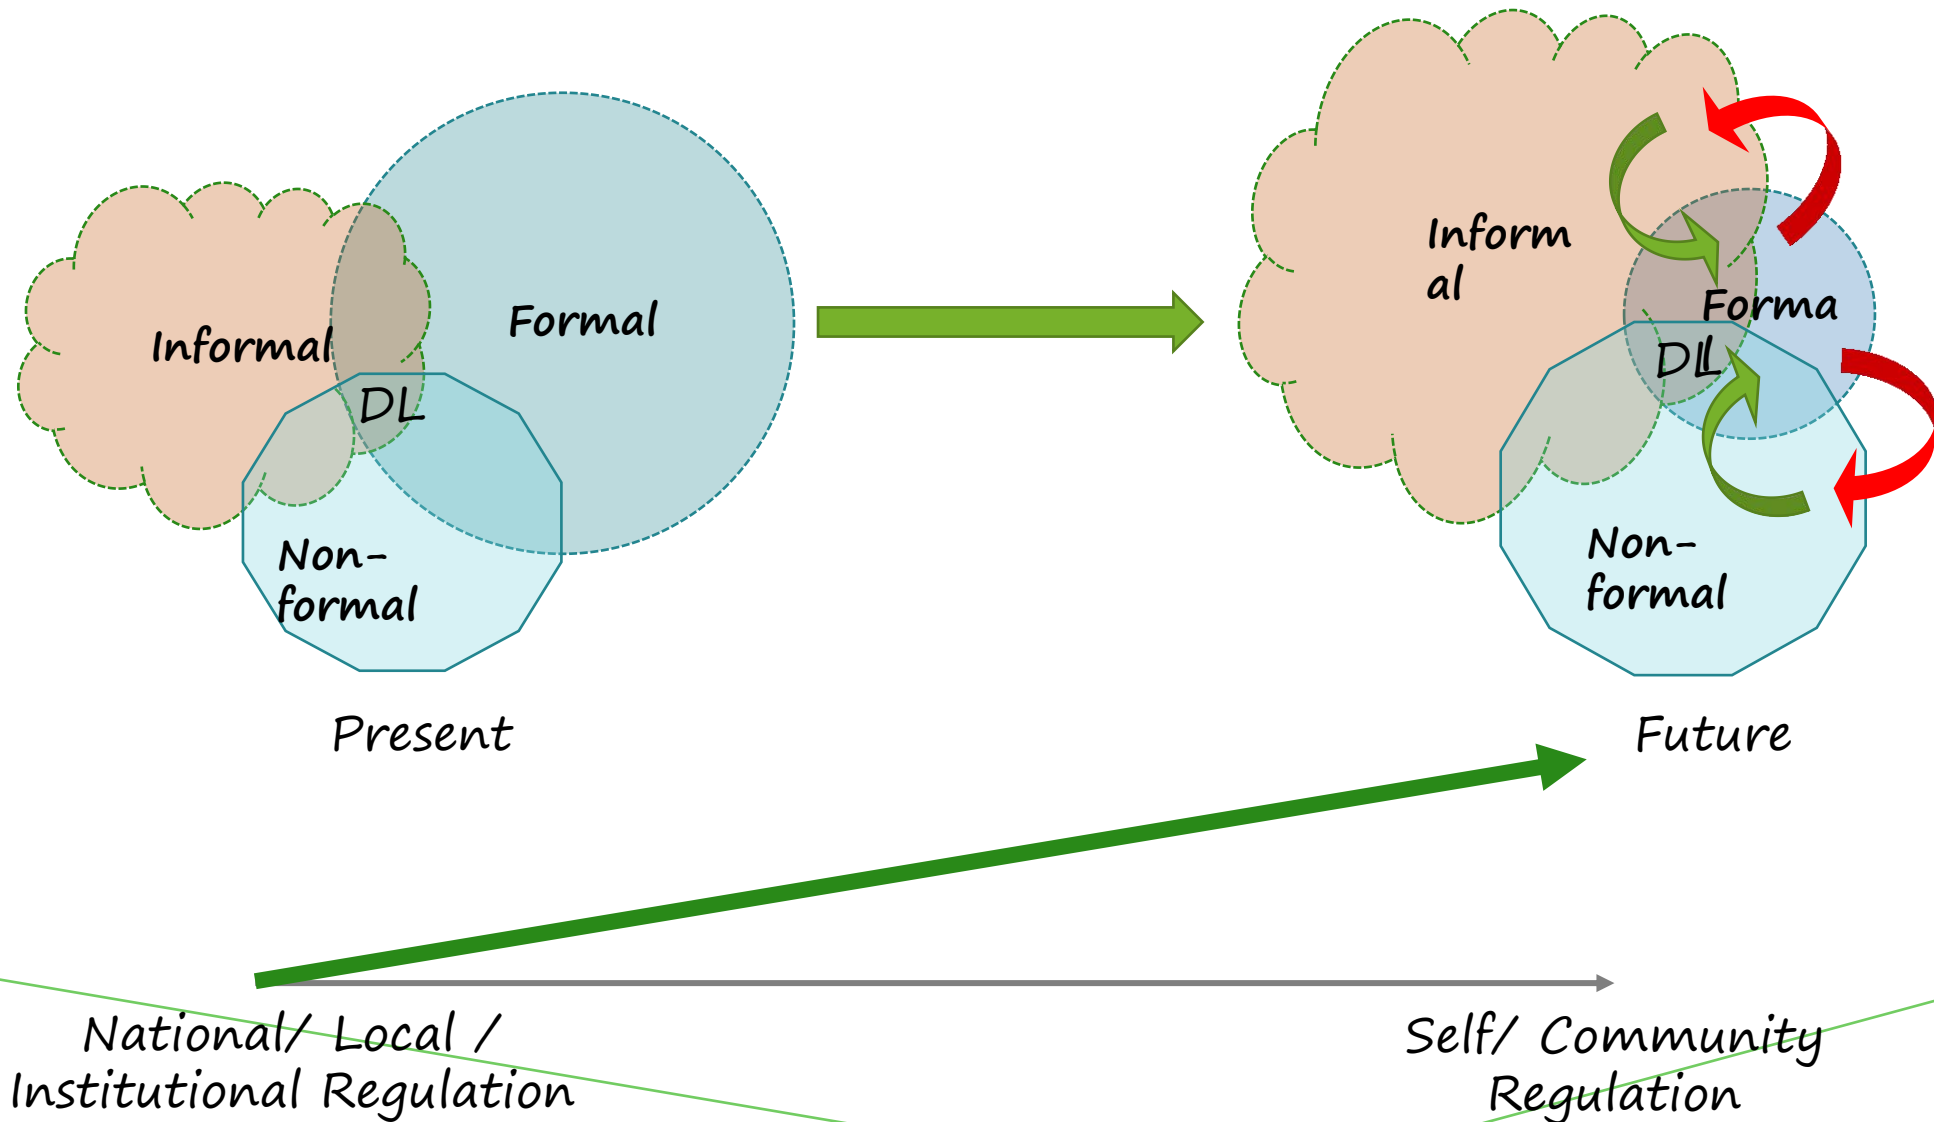

# **SOCIAL EMOTIONAL LEARNING**

- Develop a taxonomy for SEL (social-emotional learning) in digital contexts to be used by practitioners, taking into account ethical principles in teaching practices.
- Construct communities of practice using online technologies to solve key problems related to SEL.
- Integrate SEL in digital educational contexts in pre- and in-service teacher training programs.
- Conduct research across different countries and cultures to understand the role of technology in development of SEL competencies and their impact on the learning and flourishing of students.

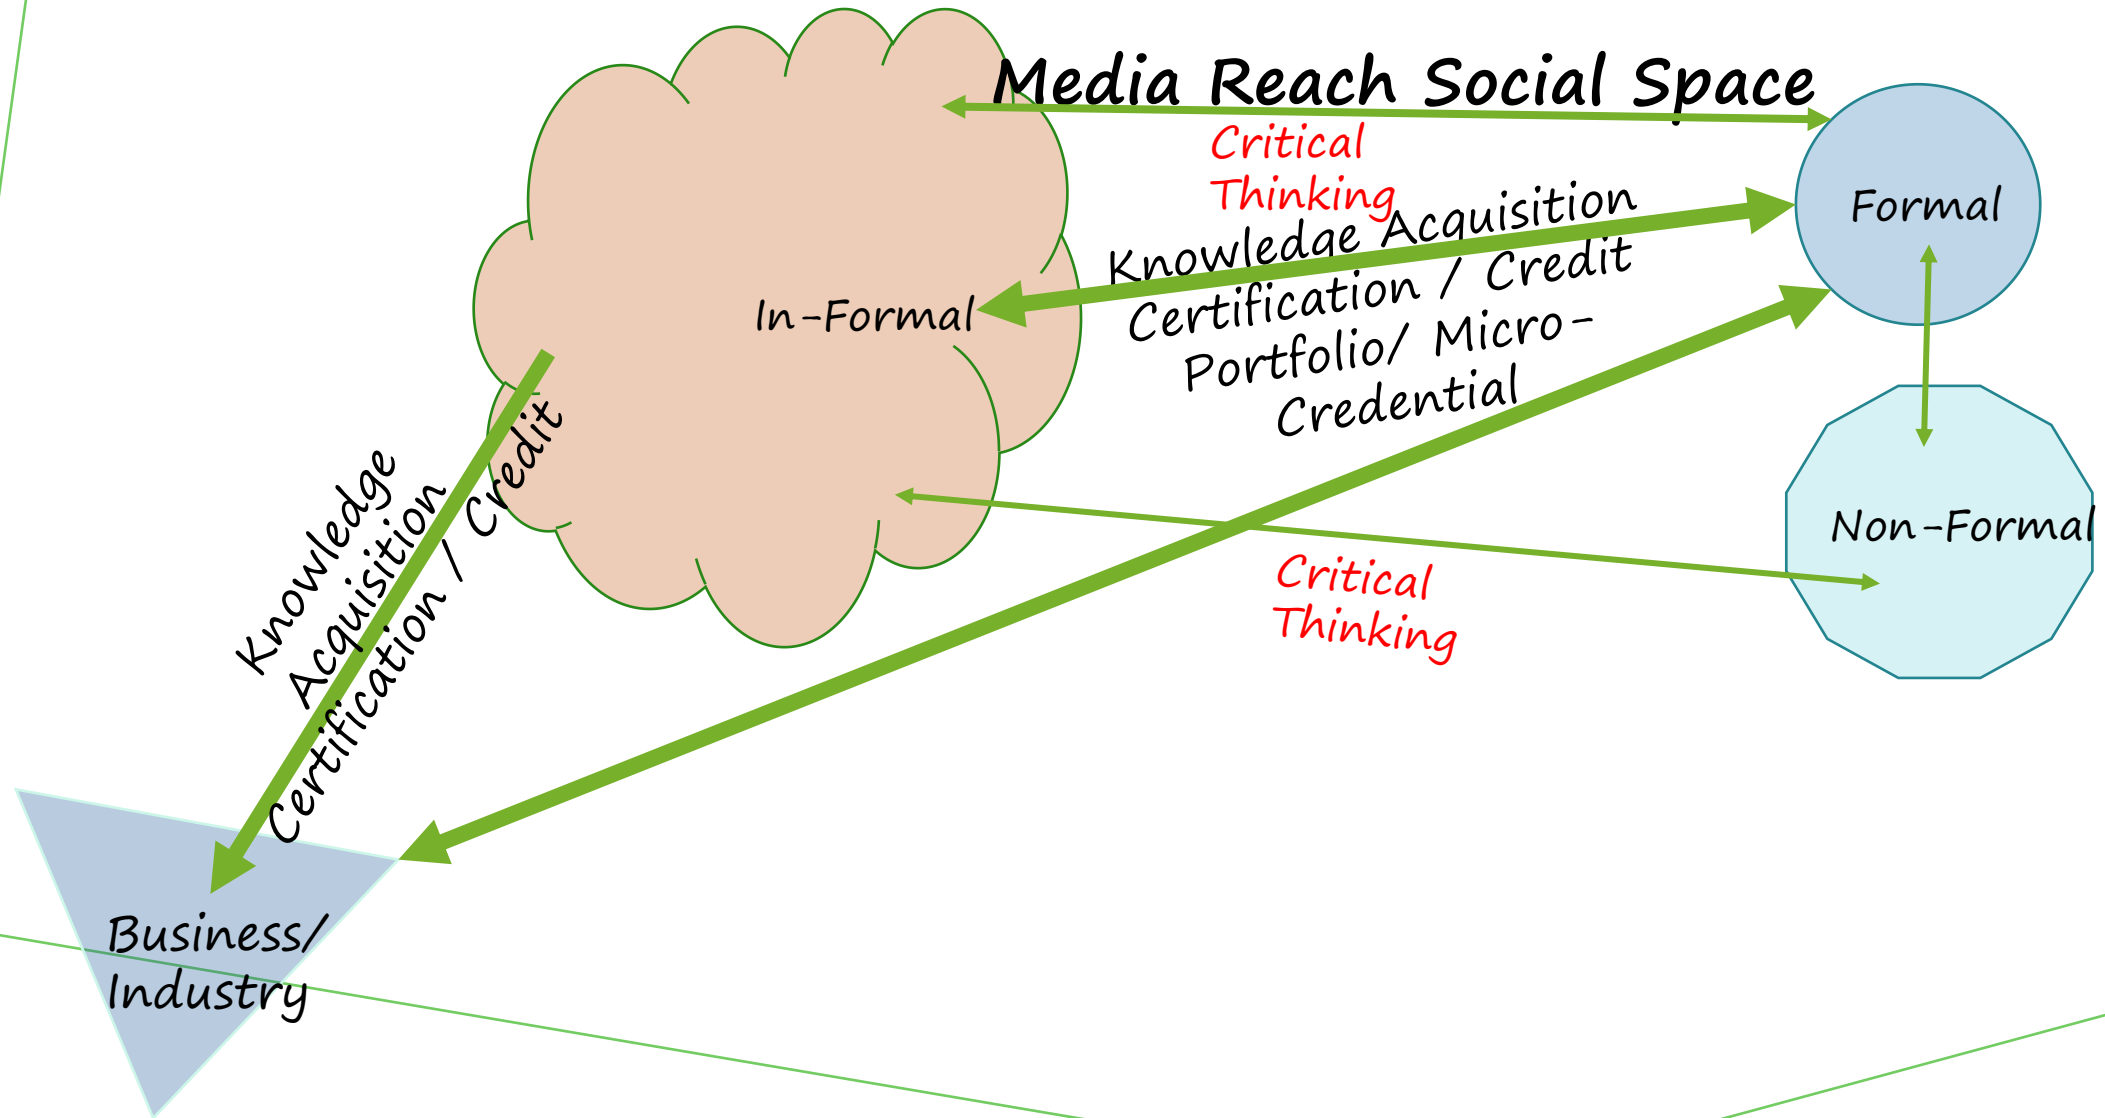

# EVOLVING LEARNING ECOSYSTEM

DL = Digital Learning  
Critical Thinking /  
Creativity  
Credit / Competency

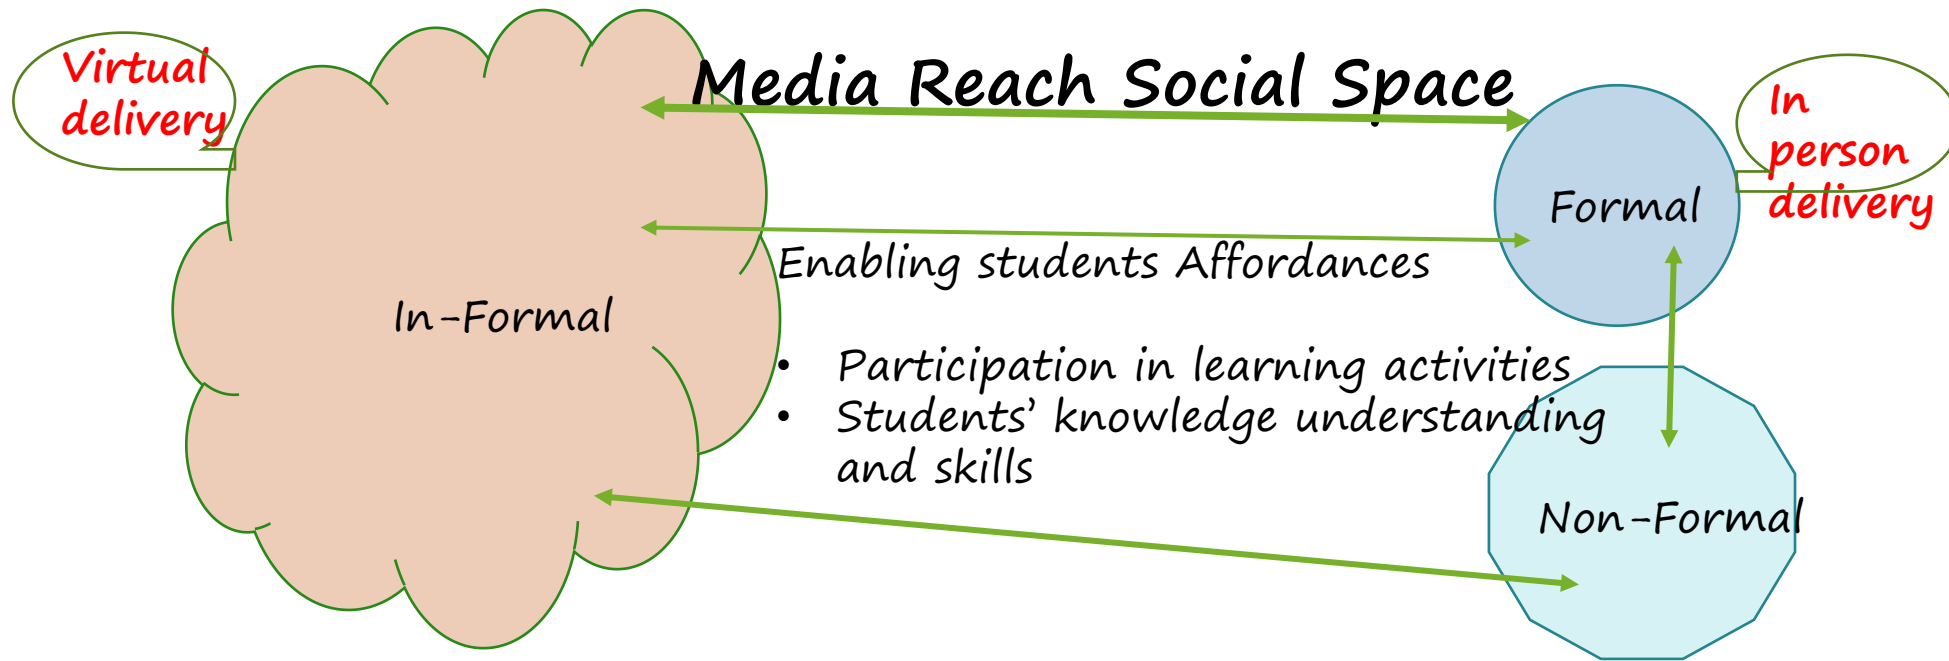

# STUDENTS' POSITION IN THE DIGITAL LEARNING ECOSYSTEM

# TEACHERS' POSITION IN THE DIGITAL LEARNING ECOSYSTEM

# DIGITAL TRANSFORMATION

Integration of  
Digital Technologies  
in all Areas

How to draw a line with a computer?

Доню Донеv

*The computer can be seen as an extension of the human brain - if a person is smart, it becomes smarter, if a person is stupid - it becomes stupider.*

*Academician Blagovest Sendov, 1979*

**2002**

Some envisioned e-learning as...

... and fear that the teacher will probably look like this...

# 2020 TEACHERS

you all to be independent, innovative  
teachers who will do exactly as I say!"

WHEN WORKING FROM HOME AND  
REMOTE LEARNING TAKE A TOLL...

# 2021 FAMILY

# 2022 SCHOOL

RESUMES TODAY AROUND THE COUNTRY AS TRANSITION CHILDREN SLOWLY.

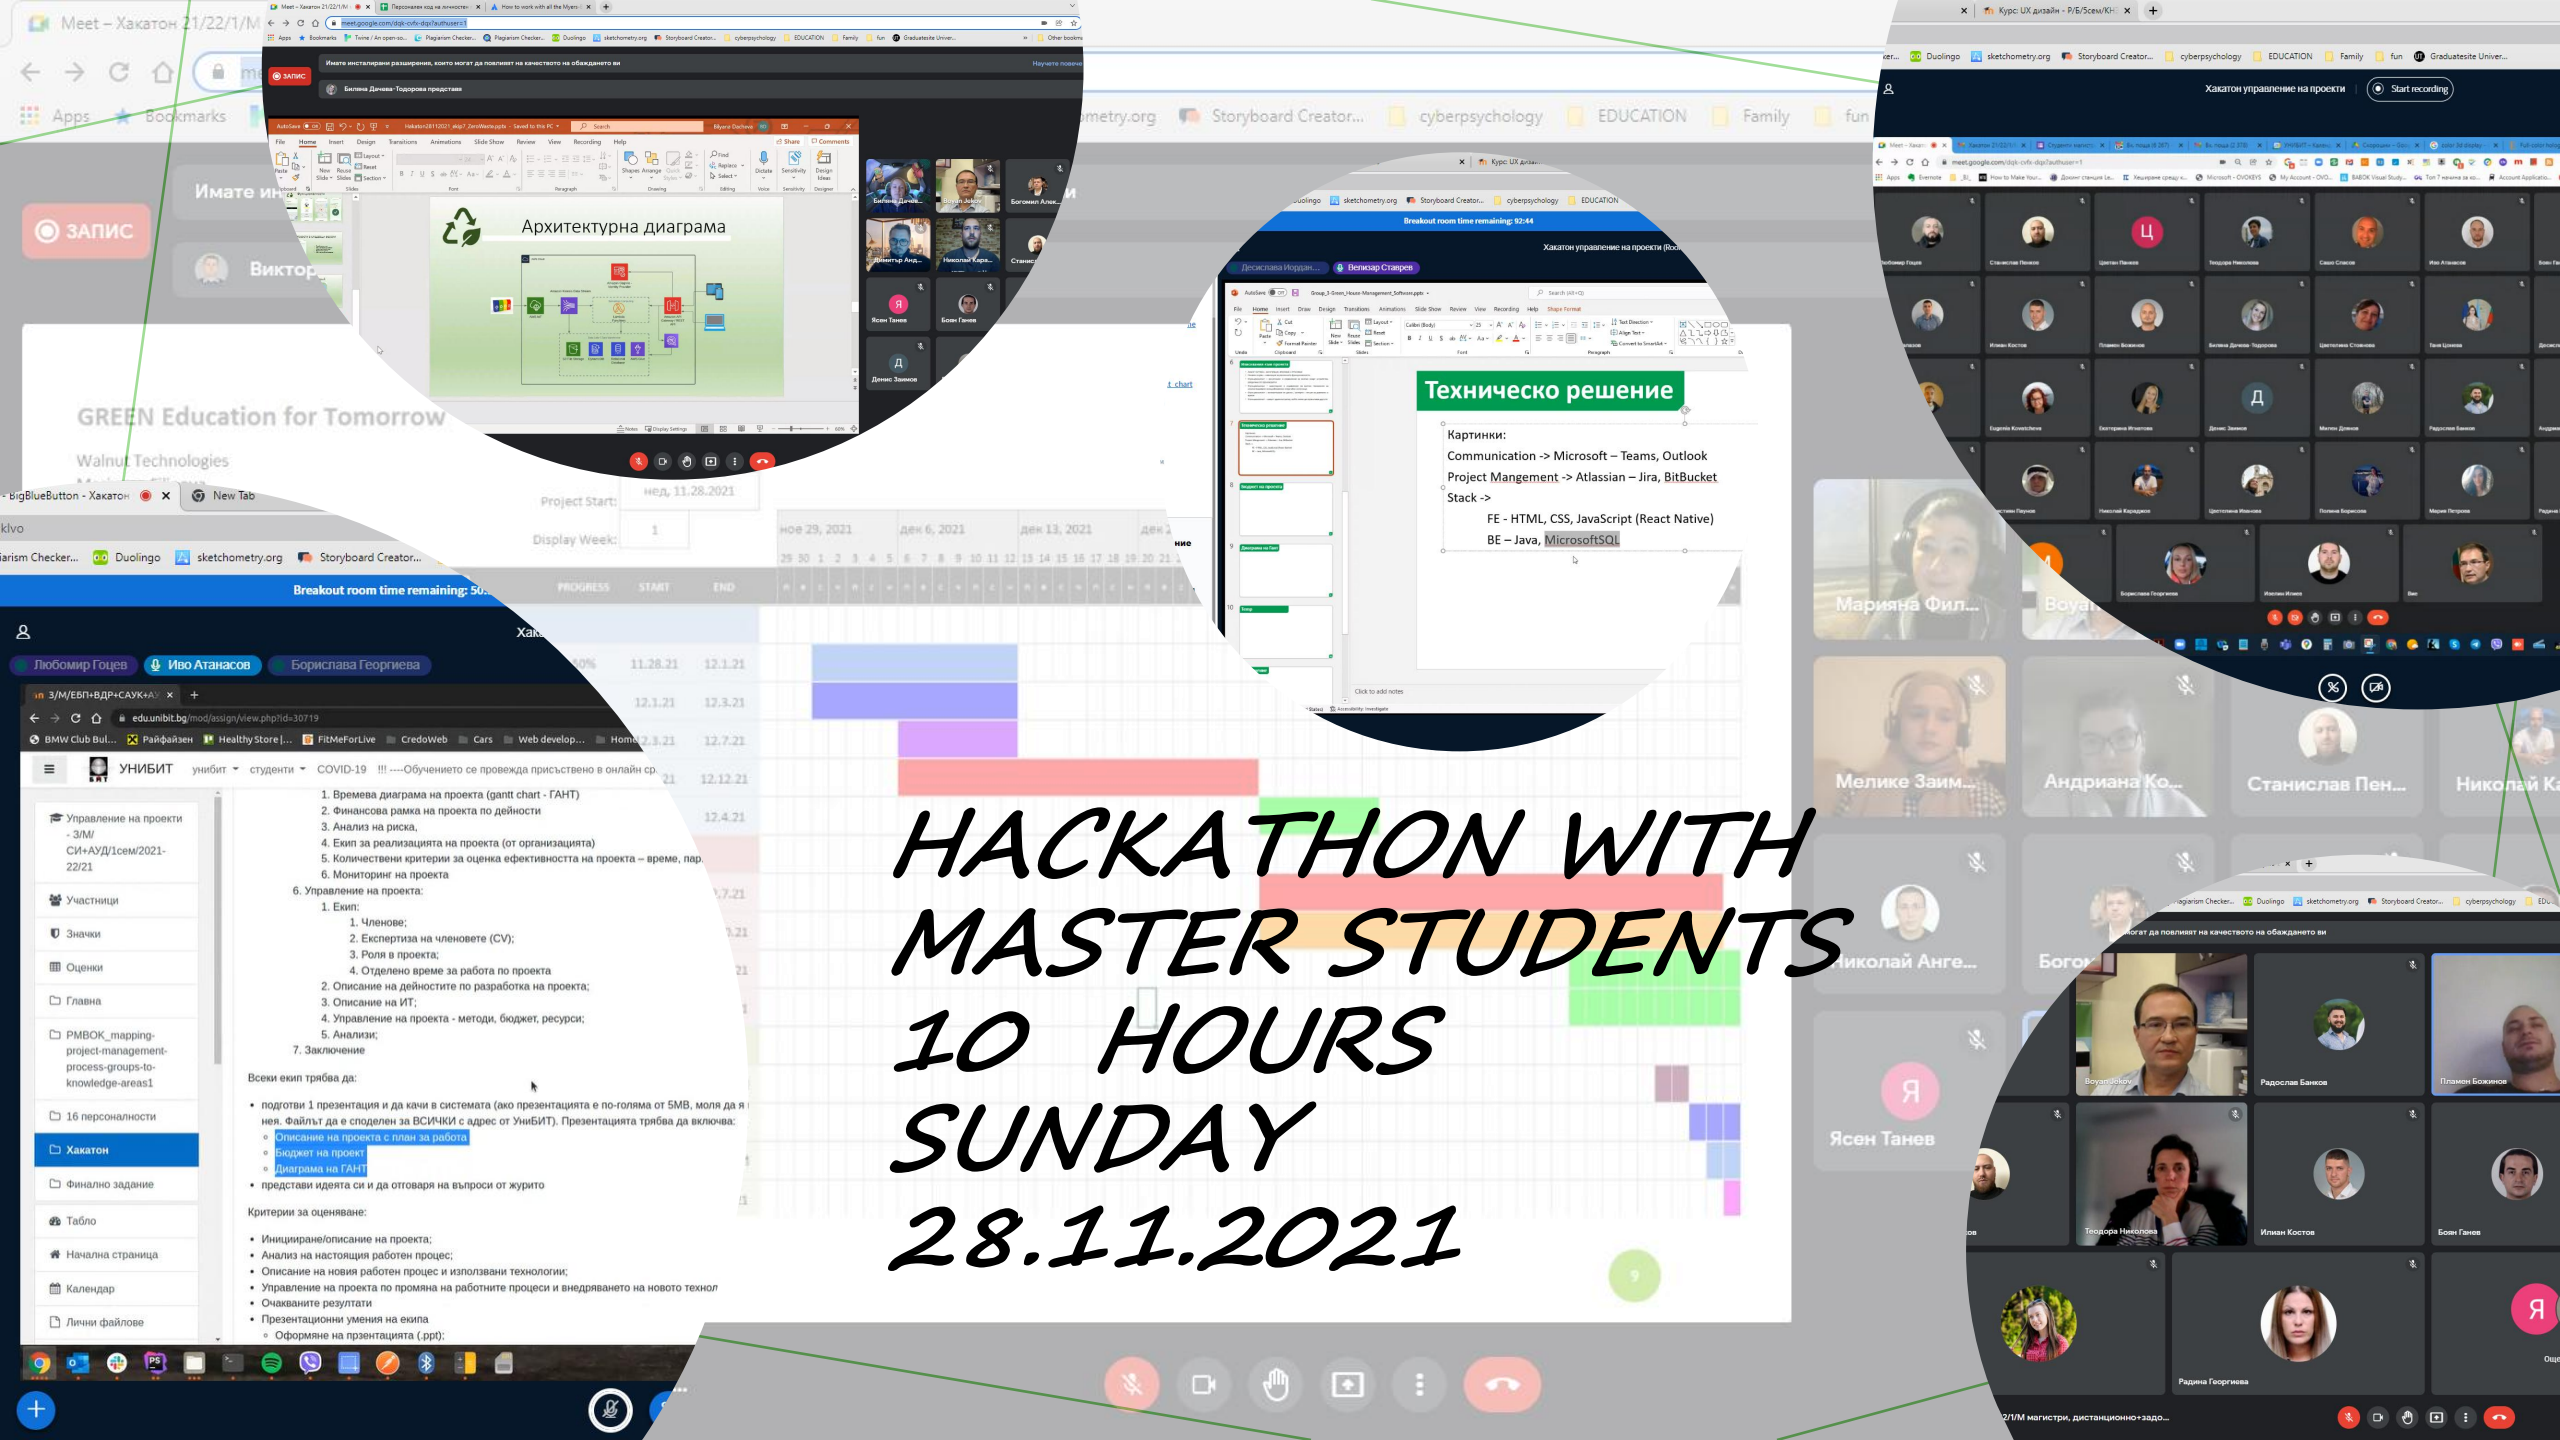

***IS THERE SOMEONE  
BEHIND THE SCREEN?***

*GOOD NOISE IS A SIGN OF  
COMMITMENT*

# HACKATHON WITH MASTER STUDENTS 10 HOURS SUNDAY 28.11.2021

### Архитектурна диаграма

### Техническо решение

Картинки:  
Communication -> Microsoft – Teams, Outlook  
Project Management -> Atlassian – Jira, BitBucket  
Stack ->  
FE - HTML, CSS, JavaScript (React Native)  
BE - Java, MicrosoftSQL

### УНИБИТ

COVID-19!!! ----Обучението се провежда присъствено в онлайн ср.

1. Времева диаграма на проекта (gant chart - ГАНТ)
2. Финансова рамка на проекта по дейности
3. Анализ на риска,
4. Екип за реализацията на проекта (от организацията)
5. Количествени критерии за оценка ефективността на проекта – време, пар.
6. Мониторинг на проекта
6. Управление на проекта:
  1. Екип:
    1. Членове;
    2. Експертиза на членовете (CV);
    3. Роля в проекта;
    4. Отделено време за работа по проекта
  2. Описание на дейностите по разработка на проекта;
  3. Описание на ИТ;
  4. Управление на проекта - методи, бюджет, ресурси;
  5. Анализ;
7. Заключение

Всехи екип трябва да:

- подготви 1 презентация и да качи в системата (ако презентацията е по-голяма от 5MB, моля да я наея. Файлът да е споделян за ВСЯЧКИ с адрес от Унибит). Презентацията трябва да включва:
  - Описание на проекта с план за работа
  - Бюджет на проект
  - Диаграма на ГАНТ
- представи идеята си и да отговаря на въпроси от журито

Критерии за оценяване:

- Иницизирано/описание на проекта;
- Анализ на настоящия работен процес;
- Описание на новия работен процес и използвани технологии;
- Управление на проекта по промяна на работните процеси и внедряването на новото технол
- Очакваните резултати
- Презентационни умения на екипа
  - Оформяне на презентацията (.ppt)

High5: Transdisciplinary methodology for Integrated Design 2019-1-PL01-KA203-065784

Co-funded by the Erasmus+ Programme of the European Union

September 2021

**HIGH 5**

Co-funded by the  
Erasmus+ Programme  
of the European Union

High5: Transdisciplinary  
methodology for Integrated  
Design 2019-1-PL01-KA203-065784

May 2022

**DECEMBER 2022**

Представяне на история,  
свързана с предстоящия  
проблем/ задача / проект

Представяне на участниците  
формиранни на групи

За по-големите може  
да се използва тяхната  
тип персоналност  
Разпределение на роли  
в екипа

Добре е винаги да има  
въпроси от рода:  
за кого, какво и как?

**ГЕНЕРИРАНЕ НА ИДЕИ ЗА РЕШЕНИЕ  
НА ПОСТАВЕНИЯ ПРОБЛЕМ**  
*по групи*

Подбор на  
идеи за по-нататъшно  
развитие

Използване на  
критично мислене  
и инструменти  
като бте мислещи  
шапки на Боно

**Формулиране на  
3 идеи**

**Кратко представяне**  
За кого е предназначено  
Планиране на задачи  
Доизясняване на идеите  
Какъв ще е крайния продукт

Финален подбор

**Формулиране  
Финалната идея**

Кратко представяне,  
За кого е предназначено  
Планиране на задачи  
**Прототипиране**

**Финално представяне**

Представяне на история,  
свързана с предстоящия  
проблем/ задача / проект

Tell a story related to the  
problem / case / task

Представяне на участниците  
формиран на групи

Group forming

*За по-големите може  
да се използва тяхния  
тип персоналност  
Разпределение на роли  
в екипа*

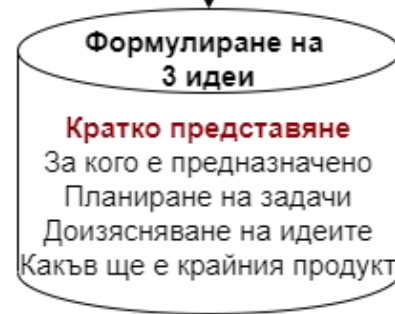

*Добре е винаги да има  
въпроси от рода:  
за кого, какво и как?*

*Използване на критично мислене и инструменти като бте мислещи шапки на Боно*

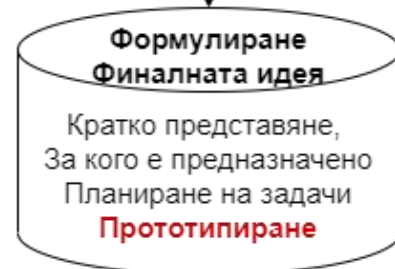

Ideas selection

Set of 3 ideas  
short presentation

Final presentation

# ***APPROACHES & TOOLS***

# DESIGN THINKING

## THE STAGES OF INTEGRATED DESIGN

**DISCOVER**

Review information related to your topic.

**DEFINE**

Identify a problem and form a thesis statement.

**IDEATE**

Come up with new ideas based on your research.

**IMPLEMENT**

Make your idea real.

## CREATIVITY

Ideas, alternatives,  
possibilities  
Lateral thinking

## PROCESS

Thinking about thinking  
Planning for action

## FACTS

Information and data  
Neutral and objective  
What do I know?  
How will I get the information I need?

De Bono  
Thinking hats

## CAUTION

Caution, critical thinking  
Why something may not work

## FEELINGS

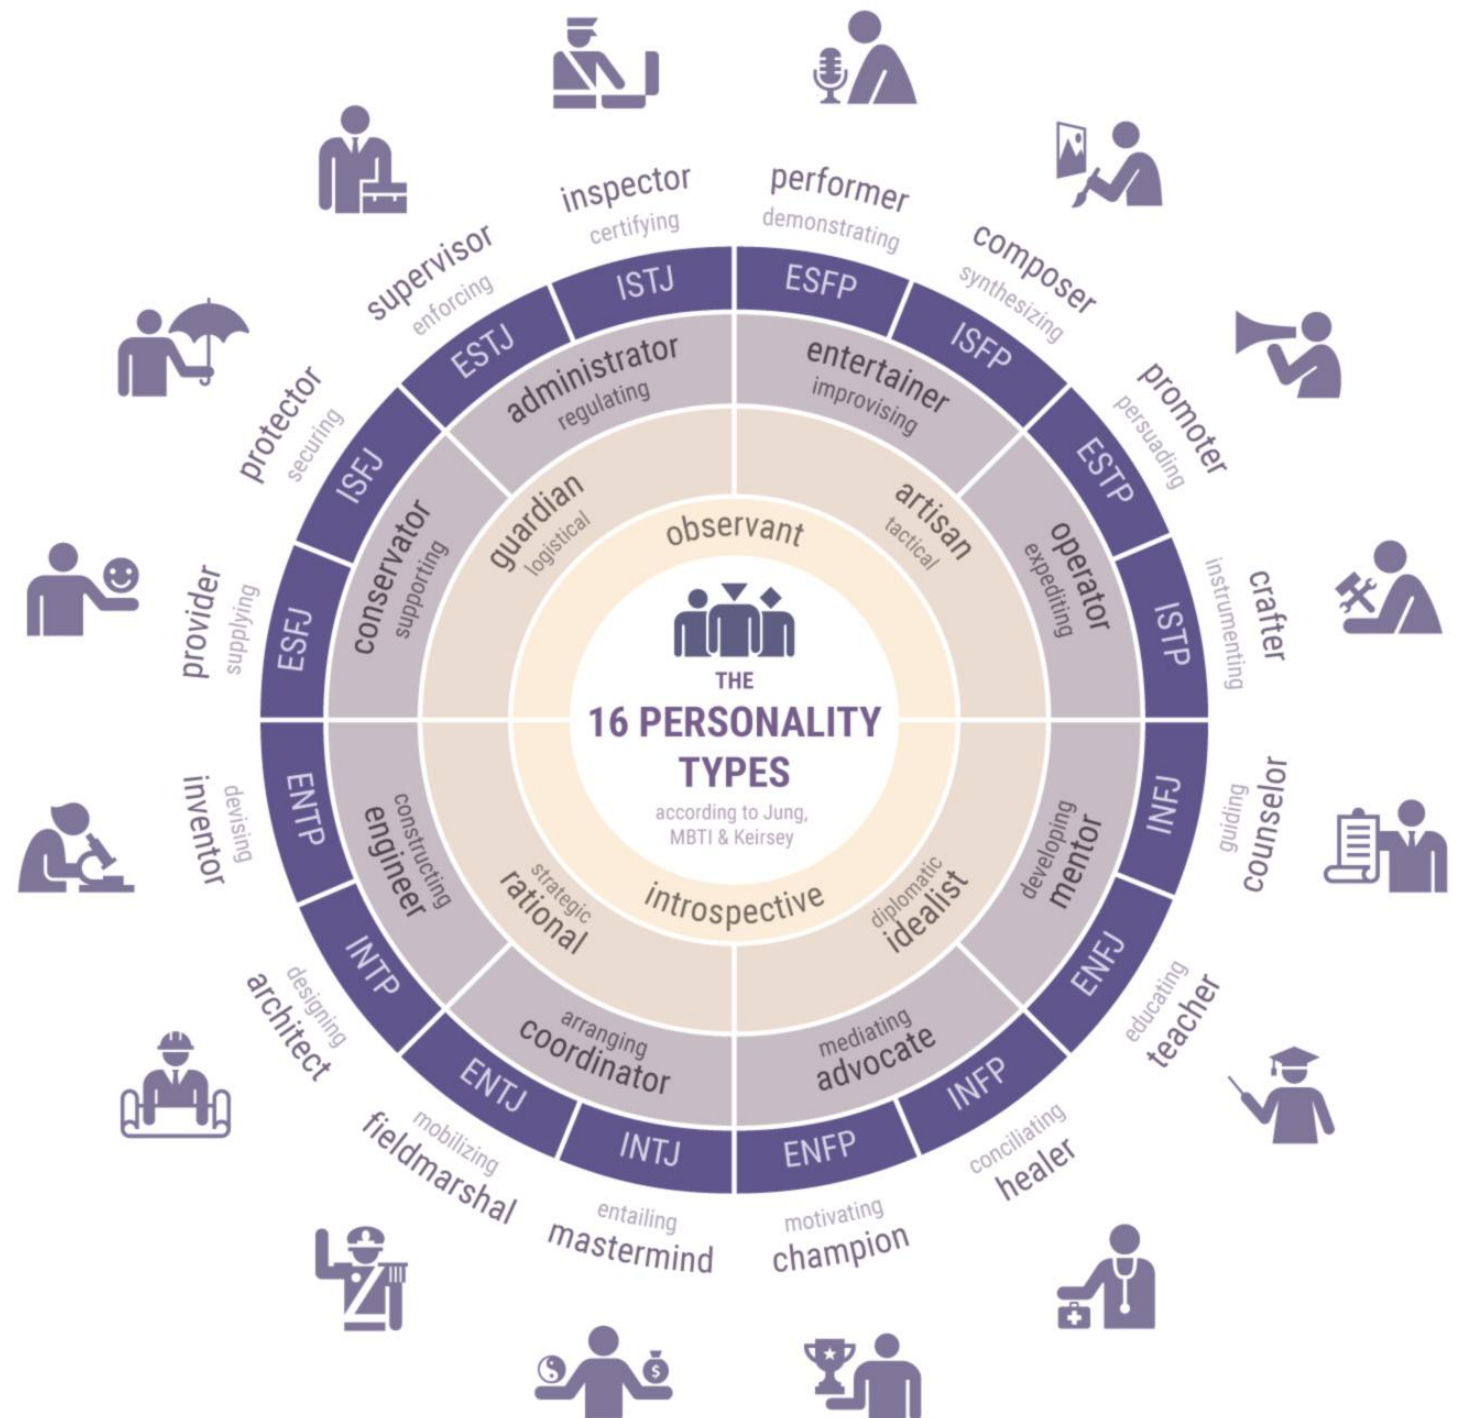

Intuition, hunches  
My feelings right now  
No reasons are given

## BENEFITS

Optimism  
Positives, plus points  
Logical reasons are given

*THANK YOU FOR YOUR  
ATTENTION*
